

CERTIFICATE OF ANALYSIS

Product	PROTEASE INHIBITOR COCKTAIL (For Bacteria Cell, with EDTA, 1ml)
Product Code	BS382
Lot #	# 110614R2

Components:

Component	BS382
PMSF	100 mM
Pepstatin A	2.2 mM
E-64	1.4 mM
1,10-PNTL	500 mM

Note: PNTL is abbreviation of Phenanthroline.

Caution:

PMSF is harmful; it is extremely toxic and irritating to eyes and skin. Wear eye & hand protection to keep the solution containing PMSF away from skin and eyes. This product is for laboratory research use only.

Storage:

Store cocktail at -20°C . Cocktail is dissolved in DMSO containing little deionized water. The cocktail may form crystals. If there are crystals, place it at RT for 5 minutes.
