

CERTIFICATE OF ANALYSIS

Product Code: AS88-60191-100mL

Product Name: Sodium orthovanadate, 100mM aq. soln.

Lot No. :

Appearance: Colorless to pale yellow liquid

pH: > 10.0

Sodium orthovanadate: 100 mM

Method: Prepared in 18.2 megohms-cm \pm 1 water. Solution boiled for 10 minutes then cooled to room temperature; this step is repeated until solution becomes colorless. The colorless solution is filtered through 0.22-micron filter.
